

5 IT Companies to Check for Fresher Roles

India • Application links, eligibility checkpoints & skills | Updated 2 October 2026

Quick reality check: Hiring is role- and drive-specific. A fresher program does not mean applications are open today. TCS's surfaced 2026 NQT page is marked CLOSED. Verify each live listing and deadline before applying.

Official application routes

- [TCS NQT All India Hiring](#)
- [TCS entry-level careers](#)
- [Wipro Early Careers](#)

Eligibility and skills at a glance

Company / track	Qualification & conditions to check	Skills to prepare
TCS NQT	Official page lists 2024–26 BE/BTech/ME/MTech/MCA/MSc; 60% minimum in 10th, 12th, diploma (if any), UG/PG; no pending backlog; no extended education. 2026 registration is marked CLOSED. Recheck the next drive FAQ.	Aptitude, verbal, reasoning, coding, OOP, SQL/DBMS
Wipro	Elite targets engineering graduates; eligibility (degree, batch, marks/backlogs) varies by program. Confirm the specific job notice. Wipro lists distinct early-career pathways.	Programming, DSA basics, OOP, SQL, communication
Accenture	No single fresher rule. Degree, passing year, experience, location and skills are set per job. India entry-level page says graduate/postgraduate applications may be closed; check live job search.	Role-specific skills, problem solving, communication, teamwork
Infosys	No single fresher rule. Check each graduate listing for degree, batch, marks/backlogs, location and assessment requirements. Filter by India.	Programming fundamentals, OOP, SQL, aptitude, communication
Cognizant GenC	Off-campus drives specify eligible streams and batches individually; campus hiring is coordinated through the placement office. Assessments can cover communication, aptitude and/or technical skills.	Aptitude, communication, coding / SQL as role requires

Before you click Apply

1. Match your passing year, degree/stream, marks or CGPA, backlogs and experience to the exact job post. Rules are role-specific.
2. Apply through the official company portal or placement office. Finish each required profile, drive application and assessment registration; save confirmation.
3. Keep resume details consistent with certificates and forms. Use an active email/phone and check spam for assessment invites.
4. Never pay a recruiter/intermediary for a job, interview, offer letter or assessment. Verify suspicious messages on the official careers site.
5. Check location, shifts/work model, duties, joining timeline, bond/service agreement (if any) and compensation in the offer.

5 resume tips for freshers

1. Tailor the top section to the role: degree, graduation year, relevant skills and a concise summary.
2. Show 2–3 projects with what you built, tools used and a result; link a working GitHub/portfolio.
3. List skills honestly and group them (languages, databases, tools); be ready to explain every item.
4. Use action verbs and specific outcomes for projects/internships; replace generic claims with evidence.
5. Keep it one page, ATS-friendly and typo-free: simple headings, readable font, no tables/graphics, professional email.

Source note: Links point to official company career pages. Eligibility is summarized; the live official role notice is authoritative. Openings can change or close without notice.
